CHAMPIONS AND DEFENDERS OF CHILDREN LEGISLATIVE SCORECARD

118TH CONGRESS - 1ST SESSION

THE FIRST FOCUS CAMPAIGN FOR CHILDREN LEGISLATIVE SCORECARD

First Focus Campaign for Children’s Legislative Scorecard reflects the votes, bill sponsorships and other actions lawmakers took during the first session of the 118th Congress, which began in January 2023 and ran through December 2023.

During this very short period of time, our nation’s children have gone from crossroads to crisis.

This 118th Congress began with children on a high: The federal government had made significant investments in children during the previous Congress, which spanned January 2021 to January 2023 — the height of the coronavirus pandemic and its associated economic hardship. In response, Congress and the Administration made long overdue investments in family economics, education, early childhood, child care, family medical leave, child nutrition, and health care. Investments were also made to address this global crisis internationally. Lawmakers passed the American Rescue Plan Act (ARPA) and invested wisely through the appropriations process. These efforts increased the share of federal spending on children to a record high of 11.89% in FY 2021.

When they arrived in the 118th Congress, lawmakers faced a choice: Continue the progress children had finally won or send them back into crisis, where poverty, hunger, homelessness, lack of health insurance and other struggles are on the rise.

Sadly, many lawmakers chose crisis.

Now, more than ever, children need policymakers to be Champions and Defenders who are willing to focus on, support, raise their voices for, and attach their names to legislation that would improve the lives of our nation’s children. These Champions and Defenders must also actively oppose legislation or regulatory and administrative actions that would harm kids.

Consequently, this report is about accountability. The Legislative Scorecard recognizes those lawmakers in the 118th Congress who actively worked to make children a greater priority in the halls of Congress. This report also identifies the eight worst performing lawmakers who seem to be going out of their way to actively harm children. We must urge them and others to do far better for our kids and our nation’s future.

THE 2023 CHAMPIONS AND DEFENDERS OF CHILDREN

This year's 120 Champions and Defenders of Children include 40 senators and 80 representatives who have stepped forward to make "the best interests of children" a top priority in the Senate and House in 2023. They have all taken affirmative steps to positively address the problems facing children.

What makes the 120 Champions and Defenders unique is that they have repeatedly used their legislative roles to raise and move to the forefront those issues that are important for children. Champions consistently pursue policies and legislation that make children a priority across the full array of issue areas. Defenders more often than most consider and take action in support of the best interests of children in a number of votes and by sponsoring or cosponsoring of bills.

Others in Congress, who may just fall short in terms of points to qualify as a Champion or Defender, have also taken important votes or played a leadership role for children on some important aspects of policy that would either improve the lives of children or protect children from harm. We applaud these lawmakers for their work in those areas.

As Congress debates and sets the nation's federal priorities on policy and budget matters, the Champions and Defenders cited in this report make children a "first focus" of their work in making public policy decisions. And as advocates for children, we want to take this opportunity to spotlight the 2023 Champions and Defenders of Children and express our gratitude and appreciation to them for their strong support for children.

METHODOLOGY

Children rely on adults to ensure that their needs are addressed. Our Legislative Scorecard is intended to be a tool to hold our federal policymakers accountable for representing and addressing their needs. It honors those who use their voice to champion and defend the needs of children.

The FFCC Legislative Scorecard is based on a points system that has been innovative since its creation in 2010. Since its inception, we have scored legislative votes in which children would be significantly or predominately impacted, which is typical of many other legislative scorecards. In addition, when legislators take public actions on votes or in adding their names as sponsors or cosponsors to key legislation (both positively or negatively) that impacts children, our Legislative Scorecard captures that information.

Points are awarded to lawmakers for sponsoring or cosponsoring legislation of importance to children or taking key votes in support of the "best interests of children." Furthermore, points are taken away when members of Congress sponsor or cosponsor bills or take votes that would be harmful to children.

Other scorecards often seek to "score" votes and legislation that may impact children, but legislator support or opposition may be unrelated to their support or opposition to the needs of children because kids are only a minor issue in the legislation. In contrast, the FFCC Scorecard measures positions on votes and legislation that are either specific to or that would disproportionately impact children. Thus, the FFCC Scorecard is the most child-focused national scorecard, as it more truly reflects the support or opposition to the "best interests of children" than other more general scorecards.

As the nation's leading bipartisan voice for our nation's children, First Focus Campaign for Children also highlights the most extensive array of issues that impact children in our scorecard.

» **Key Votes:** FFCC recognizes that not all votes are equal. Therefore, we weigh major votes more heavily than minor votes. We also give members extra points if they show political courage to vote in the best interests of children despite an opposing position from a majority of their own party. For a list of Key Votes for and against children, see page 6.

» **Key Bills:** The FFCC Legislative Scorecard also recognizes that lawmakers often negotiate and make decisions on legislation well before House and Senate votes. Consequently, rather than just tracking votes on bills and amendments, the FFCC Legislative Scorecard includes a more in-depth analytical framework. Our Scorecard awards additional points to policymakers from our website's "Bill Tracker" based on their sponsorship and co-sponsorship (original sponsors are awarded more points) of key legislation that helps children. We subtract points away from those lawmakers sponsoring or cosponsoring bills that harm children. For a list of Key Bills, see page 10.

Finally, we also award points based on membership in congressional caucuses specific to children and actions (including major letters, floor speeches, hearings, etc.) policymakers engage in that would positively or negatively impact children.
